CAREER OBJECTIVE

Enthusiastic B.Tech CSE (AI/ML) student at KIIT University with hands-on experience in Python, data analysis, and AI-powered workflows. Seeking a Training Engineer Internship to leverage technical expertise, strong multilingual communication skills, and a passion for teaching to mentor engineering students in programming, problem-solving, and industry-relevant technologies.

TECHNICAL SKILLS

- Programming Languages: Python, C
- Data & Analytics: MS Excel, Google Sheets, Tableau, Data Analysis & Visualization
- AI/ML Tools: IBM watsonx Orchestrate, NVIDIA AI Platforms, Generative AI Frameworks
- Core CS: Data Structures & Algorithms (DSA)
- Productivity: PowerPoint, Email Communication, Technical Documentation

PROFESSIONAL & COMMUNICATION SKILLS

- Multilingual: Fluent in English, Hindi, and Bengali
- Ability to explain complex technical concepts in accessible, student-friendly language
- Public speaking and presentation skills; confident in front of diverse groups
- Strong time management, task prioritization, and ability to meet deadlines consistently
- Collaborative mindset with student mentoring aptitude and team coordination skills
- Quick learner; adaptable to new tools, platforms, and curricula

EXPERIENCE — PROJECTS & SIMULATIONS

AI Assistant Developer | IBM — watsonx Orchestrate 2024

- Designed and tested AI-powered assistant workflows on IBM's enterprise AI platform.
- Applied natural language processing, automation, and AI orchestration — skills directly transferable to teaching AI/ML topics.

AI & Generative AI Certification | NVIDIA Academy 2024

- Completed structured training on Generative AI, deep learning fundamentals, and GPU-accelerated computing.
- Equipped to teach foundational AI concepts including neural networks, LLMs, and real-world AI applications.

Business Simulation — Data Analysis & Visualization | Deloitte & Tata 2024

- Collaborated on business case simulations focused on data-driven decision-making.
- Applied Tableau and Excel for data visualization — reinforcing ability to teach industry-standard analytics tools.

Price Data & Credit Risk Analysis Simulation | JPMorgan Chase & Co. 2024

- Analyzed financial datasets, identified risk patterns, and produced structured reports.
- Strengthened analytical thinking and Python-based data processing — skills directly relevant to programming training sessions.

CERTIFICATIONS

- **AI Assistant with watsonx Orchestrate** — IBM (2024)
- **AI and Generative AI** — NVIDIA Academy (2024)
- **Data Analytics & Forensic Technology** — Deloitte Virtual Internship (2024)

- **Data Visualization** — Tata Group Virtual Internship (2024)
- **Price Analysis & Credit Risk** — JPMorgan Chase & Co. Virtual Internship (2024)

EDUCATION

B.Tech — Computer Science & Engineering (AI/ML) 2024 – 2028

KIIT University, Bhubaneswar

Higher Secondary (Class XI–XII) — Science Stream 2022 – 2024

Techno India Group Public School, Siliguri

Secondary (Class I–X) Completed 2022

Don Bosco School, Siliguri
